- A) Remember; a Teacher Empowers their students. In order to empower our students – we must give them the information, but we also must be careful to

protect self-esteem. Learning how to correct protects self-esteem. If you don't protect self-esteem and effort, you are killing them on the inside.

- B) Teaching is a matter of knowing how to manage people. Many of the techniques you learn in this course – you can use everywhere. Practice P.C.P. this week.
